TITLE: TRANSFERRING METHOD FOR TRANSFERRING HOLOGRAM OR  
DIFFRACTION GRATING LAMINATED IN A THERMAL TRANSFER  
SHEET AND A TRANSFER OBJECT

**AMENDED ABSTRACT**

~~The present invention provides a~~ A transferring method for transferring a hologram ~~and like~~ with stable quality including on-demand information by using a thermal transfer sheet where the hologram ~~and the like~~ is laminated. The [[A]] transferring method ~~of the present invention~~ transfers a thermal transfer sheet [[1]] in which a hologram or a diffraction grating is laminated on a base material film [[2]], wherein a direction [[A]] of heating sequentially by a heat source [[11]] of a minute area unit and a direction [[B]] of recorded information for enhancing optical effects of the hologram or the diffraction grating coincide with each other.
